For Immediate Release

Former IBM Executive Diana Hage Hired as Chief Executive Officer at RFID Global Solution, Inc.

Former IBM Global Wireless Services and ODIN executive joins RFIDGS

Eldersburg, MD and Reston, VA, February 3, 2009 - RFID Global Solution, Inc., the leading provider of asset visibility solutions for defense, government and commercial clients, has named former IBM executive Diana Hage as Chief Executive Officer. Ms. Hage joins RFIDGS after serving as ODIN technologies head of European operations and Chief Operating Officer, and IBM's Director, Global Wireless Services.

"We are extremely pleased to have an executive of Ms. Hage's caliber and experience join the RFID Global Solution team," said Thomas M. Manzagol, Chairman, Board of Directors, RFIDGS. "Diana's experience is focused on leading large, global services organizations and high-tech start-ups in emerging technology markets. Ms. Hage has significant expertise in building RFID solutions that deliver measurable ROI and business value, and brings with her a deep understanding of RF applications in Aerospace and Government. Ms. Hage's leadership, experience and strategic direction is already transforming a cutting-edge RF engineering firm into a market-focused, global solutions provider."

Ms. Hage has a proven track record for growing businesses into large, revenue-generating industry leaders. At IBM, Ms. Hage was the executive responsible for the strategy and growth of IBM's enterprise mobility, wireless, and RFID services business. She also held executive positions in Corporate Strategy, Global Services Strategy, and Global Business Services. Diana joined ODIN technologies in 2006, where she was responsible for professional services, European operations, and key accounts in Aerospace and Healthcare. As the Chief Executive Officer at RFIDGS, Ms. Hage will be responsible for the company's long-term expansion plan and execution strategy, as well as increasing revenue and profitability.

"RFIDGS is leading the industry with its innovative, patented software and hardware solutions for asset tracking and visibility, and its expertise in integrating diverse technologies such as active and passive RFID, GPS, cellular and satellite communications" said Ms. Hage. "I look forward to adding my experience and specific market knowledge to this world-class team of RF pioneers and innovators."

Ms. Hage has an MBA from the Darden School of Business and a BA from the University of Virginia.

About RFID Global Solution, Inc.

RFID Global Solution, Inc. is the leading provider of asset visibility solutions for defense, government and commercial clients. RFIDGS delivers enterprise asset visibility and the widest range of sensory data from active and passive RFID, GPS and Cellular technologies, in its award-winning, patented turnkey and custom products.
